

Day 2 Practice Sheet — VLOOKUP, INDEX-MATCH, COUNTIF, SUMIF & Pivot Table

Module: Excel for Data Analysis — Lookups & Pivot Tables

Prepared By: Mr. Akarsh/ Dr. Ravneet Kaur

Objective: Practise lookup functions, conditional aggregation, and Pivot Table creation.

SAMPLE DATASET

Sheet 1 has Orders. Sheet 2 (Products) has ProductID, ProductName, Category, StandardPrice.

Order ID	Salesperson	City	ProductID	Quantity	Actual Price	Discount%
ORD-001	Amit Sharma	Delhi	P001	2	43000	5
ORD-002	Priya Singh	Mumbai	P002	5	17500	3
ORD-003	Rahul Verma	Chennai	P003	3	21000	5
ORD-004	Neha Gupta	Pune	P001	1	45000	0
ORD-005	Amit Sharma	Delhi	P002	4	18000	0
ORD-006	Priya Singh	Mumbai	P001	2	44000	2
ORD-007	Rohit Jain	Jaipur	P003	6	22000	0
ORD-008	Neha Gupta	Pune	P002	3	17800	2
ORD-009	Rahul Verma	Chennai	P001	1	45000	0
ORD-010	Rohit Jain	Jaipur	P002	2	18000	5

PRACTICE QUESTIONS

Question	Task Description	Your Answer / Code
Q1 [VLOOKUP]	In a new column 'Product Name', use VLOOKUP to look up ProductID in the Products table and return the Product Name. Wrap in IFERROR.	
Q2 [VLOOKUP]	Add another column 'Category' using VLOOKUP to pull the Category from the Products table.	
Q3 [INDEX-MATCH]	Repeat Q1 using INDEX-MATCH instead of VLOOKUP. Compare: do both give the same result?	
Q4 [COUNTIF]	Count how many orders were placed by 'Amit Sharma' using COUNTIF.	
Q5 [COUNTIF]	Count how many orders have Quantity greater than 3 using COUNTIF with a condition.	
Q6 [SUMIF]	Calculate total Actual Price for orders from 'Delhi' using SUMIF.	
Q7 [SUMIF]	Calculate total quantity sold for ProductID 'P001' using SUMIF.	
Q8 [COUNTIFS]	Count orders where City = 'Mumbai' AND Quantity > 2 using COUNTIFS.	
Q9 [Pivot Table]	Create a Pivot Table showing total Actual Price per City. Place City in Rows, Actual Price as Value (Sum).	
Q10 [Pivot Table]	Create a second Pivot Table showing total Quantity sold per ProductID per Salesperson. Add a Slicer on City.	
BONUS	Format your Pivot Table with a built-in style. Add a Pivot Chart (bar chart) connected to the first Pivot Table.
